Page 35 PenAgain Twist n' Write feature

▶ Make Writing Easier

The easy-to-use Twist 'n Write pencil from PenAgain was designed to encourage young children to use the proper pencil grip, and it also makes writing comfortable and fun for little hands. Parents, teachers, and occupational therapists also report that the ergonomic rocket-ship design is particularly helpful for kids with weak motor skills, ADHD, autism, or juvenile rheumatoid arthritis. The pencils use thick lead for long use and never need to be sharpened.
